- 42" cabinets have 3 horizontal mullions
- Doors prepped for glass have 2-sided veneer plywood that is either stained or painted to match based on the door style
- If a mullion cabinet is at the end of a run, please note that an applied panel is recommended. This is because a mullion cabinet has a stained or painted plywood end. A standard cabinet will have a vinyl veneer that will not match the wall cabinet above. Applied panels will avoid color variation on the end of the run.
- 90° flat-front shelves are edge banded to match interior
- GLASS & GLASS CLIPS NOT INCLUDED — \*please order glass AFTER receipt of product to ensure proper fit. Doors can receive up to 7/16" thick glass.

Saginaw & Hudson  
Includes center mullions

Dartmouth & York  
Due to style limitations, does NOT include vertical or horizontal mullions. These styles are prepped for glass.
